

Select Committee Enquiry for Social Media Real Time Data

See the [enquiry home page](http://www.parliament.uk/business/committees/committees-a-z/commons-select/science-and-technology-committee/inquiries/parliament-2010/social-media-data-and-real-time-analytics/), available at <http://www.parliament.uk/business/committees/committees-a-z/commons-select/science-and-technology-committee/inquiries/parliament-2010/social-media-data-and-real-time-analytics/>

1. What was the enquiry trying to achieve? What is a parliamentary select committee? What does contributing achieve?
2. Read the written evidence (choose the publication type from the menu).
3. What were the recommendations?
 - a. What issues were commonly highlighted?
 - b. Which communicated 'best'?
 - c. Which made your job as a reviewer easiest?
 - d. What might you emulate (in these circumstances)?
4. If you were on the select committee, which 3 points would you recommend the committee to take on board?
5. If your group was the select committee, which three points would you collectively highlight as a priority to government?
